

Situation Report: Confirmed COVID-19		Location: The Gambia	
Date of Report: 2nd - 3rd June 2021		Investigation Start Date: 17th March 2020 as of 18hrs.	
Prepared by:	Epidemiology and Disease Control Unit, MoH, The Gambia		

I. HIGHLIGHTS

This is the **325th** national situation report since the confirmation of the first case of the coronavirus disease (COVID-19) in The Gambia, on the **16th March 2020**

- No new COVID-19-related death was registered, bringing the total number of deaths since **March 2020 to 179**
- Three (**3**) new cases were registered taking the total number of COVID-19 cases ever confirmed in the country to **6002**
- **2 and 1** cases were reported on the **2nd & 3rd** respectively
 - All the cases are males and they are **21,27 and 36** years
- A total of **584** new laboratory test results were received (**61** from MRCG and **523** from NPHL)
 - Of these, **2** new samples tested positive representing a **0.5%** test positivity rate
- No COVID-19 patient was newly discharged from treatment centres, while **4** got discharged at least **10** days from the day they tested positive but evaded institutional isolation
- Four (**4**) COVID-19 patient are currently on oxygen therapy
No new Contacts have been traced and monitored
- Currently there are **4** people in hotel quarantine, **23** active cases and a crude case-fatality ratio of **3%**
- As of **2nd June**, **30,443** and **7,547** people received the **1st** and **2nd** doses of **AstraZeneca** vaccine respectively, bringing the total number ever vaccinated to **37,990**
- So far **5,340 (285 New)** Rapid diagnostic tests were conducted at the Airport for travelers as of **4th June 2021**.
 - Of these, **only 2** tested positive for both RDT and PCR. These were treated and discharged.
- As of **20th May 2021**, **82** new clients received Psychological First Aid (PFA) Services provided by MoH, Department of Social Welfare (DSW) and Paradise Foundation, thus bringing the number of clients attended to **1,829** since the start of the COVID-19 pandemic.

COVID-19 SITUATION IN NUMBERS

Globally

Confirmed Cases: 173,536,223

Recoveries: 156,609,610

Deaths: 3,732,423

Senegal

Confirmed Cases: 41,631

Recoveries: 40,228

Deaths: 1,145

The Gambia

Confirmed Cases: 6002

Recoveries: 5,800

Deaths: 179

II. EPIDEMIOLOGICAL DESCRIPTION

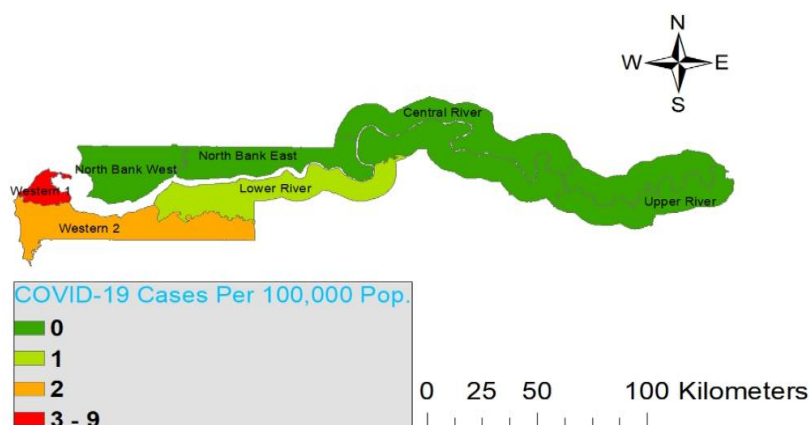

Fig 1: Geographic Distribution of Recent COVID-19 Cases Per 100,000 Pop. by Regions 15th April-14th May 2021

Fig 2: Geographic Distribution of Recent COVID-19 Tests Per 100,000 Pop. by Regions 15th April-14th May 2021

- Western 1 Health Region has a disproportionately higher number of cases than all the health regions (**See Fig. 1**)
- Despite being far-flung from current testing sites, North Bank East has sent in more samples per 100,000 population than all other regions in the hinterland, over the last 30 days (**See Fig. 2**)

Figures 3 and 4 are the age-sex distribution and the Epi-curve of confirmed cases by reported date, respectively age-sex distribution and the Epi-curve of confirmed cases by reported date, respectively.

Fig 3: Age-Sex Distribution of Confirmed COVID-19 Cases, The Gambia, 2021

* This excludes the 27 confirmed cases whose demographic information are not yet available

About 59% of the confirmed cases are males (**See Fig. 3**)

About 62% of the confirmed cases are below age 40 (**See Fig. 3**)

Fig. 4: Epidemic Curve of Laboratory-Confirmed Cases Reported Weekly, COVID-19 Pandemic, The Gambia, 2021*. A considerable amount of time elapsed between date of reporting and the date of laboratory confirmation of some cases

- Three main waves of infection occurred – the pre airport closure wave, the importation from Senegal wave and the intermittent airport re-opening and loosening of restrictions wave (**See Fig. 4**)

Status	New	Cumulative
No. of active cases in institutional isolation		9
No. of COVID-19 patients on oxygen support		3
No. of patients recovered and discharged	4	
In Hotel Quarantine	4	7
Completed Hotel Quarantine	0	5,231
Completed follow-up (asymptomatic people with travel history to affected countries) *	0	310
No. of Contact(s) Identified**	0	
No. of Contacts being monitored	69	
No. of Contacts who completed 14-day follow-up	0	16,787
No. of Contacts lost to follow-up	0	51
Total Tests conducted (Repeat Test (s))***	584(0)***	71,262
Positive test result (Repeat Test (s))	3(0)	6,002
Negative test result (Repeat Test (s))***	581(0)***	64,204
Inconclusive test result (Repeat Test (s))***	0(0)***	

Table 2: Summary of New and Cumulative Public Health Response Outputs, COVID-19 Pandemic, The Gambia, 2021

* Follow-up completed prior to the 17th March (when the first confirmed case was reported)

** Includes both low-risk and high-risk contacts and not mutually exclusive with number quarantined (as some have been quarantined) *** Includes repeat tests in bracket

III. MAJOR RESPONSE ACTIVITIES

COVID-19 RISK COMMUNICATION AND COMMUNITY ENGAGEMENT DAILY REPORT- 24/5/21

Total No. of Calls received on toll free helpline	No. of communities reached on COVID-19 through messaging on prevention and access to services	Toll Free Helpline: No. of people shared their concerns and asking questions/clarifications for available support services to address their needs	Radio phoning programme: No. of people shared their concerns and asking questions/clarifications for available support services to address their needs	TV phoning programme: No. of people shared their concerns and asking questions/clarifications for available support services to address their needs	Social Media pages: No. of people react to post and or shared their concerns and asking questions/clarifications for available support services to address their needs

Table 4: Total National vaccinated with COVISHIELD (AstraZeneca Vaccine) by priority group as of 2nd June 2021

IV. GAPS/CHALLENGES:

- CBS activities not translating to increase in the number of daily tests being conducted
- Support for innovative countrywide risk communication strategies and activities on COVID-19 is suboptimal
- Security lapses at some of the treatment centers resulting in the abscondence of patients
- Dwindling compliance with mask-wearing requirements
- Low turn-out at COVID-19 sample collection sites resulting in fewer number of daily tests
- Denial, misinformation, stigma and discrimination against COVID-19 affected families.
- Weak and unreliable internet connection at the NPHL is hampering the implementation of e-surveillance at the laboratory.
- Difficulty in accessing data on time resulting to a delay in the production of the SITREP

V. NEXT STEPS/RECOMMENDATIONS:

- CBS activities need to be synchronized with MRC's ILI surveillance to spur up testing rates in the hinterland.
- Expedite the process of having testing sites in CRR and NBW
- Intensify risk communication and community engagement activities, on COVID-19 at community level, including at LUMOS, in a bid to curtail community transmission and dispel misinformation and denial
- More tests required in the catchment area of the MRC Keneba testing site to ascertain the extent of spread of COVID-19
- Security needs to be beefed up at all COVID-19 treatment/isolation centers to prevent the abscondence of patients
- Strengthen community-based surveillance in order to increase awareness and testing rates
- Thorough enforcement of the mandatory mask-wearing regulation
- IPC measures should be strictly adhered to in all public and private health healthcare facilities
- Provision of adequate stocks of PPEs to all health facilities
- Health workers to observe all COVID-19 preventive measures including the donning of appropriate PPEs at all times
- Response committee leads should endeavor to provide data to the SITREP team on time
